

MAKE IDEAS REAL

to ensure a safer and connected world!

ROHDE & SCHWARZ

Make ideas real

Rohde & Schwarz is home to in-depth engineering know-how and highly innovative and committed employees. We're recognized as a world market leader in wireless communications. Plus, we develop future-oriented products for many growth markets such as mobile phone technology, radiocommunications and digital television. We do business in more than 70 countries worldwide, and we value individuals who share our main objective: To be the best!

Join our Test and Measurement Division in München (Germany) at the earliest possible date as

Intern (m/f/d) EMC Software Development

Your tasks:

- | Assisting with the software development for EMC and wireless coexistence applications
- | Testing of a new pattern recognition software
- | Testing of the device SW of a new switching device
- | Preparing a proof-of-concept for automatic code conversion from VisualBasis to VisualBasis.Net

Your qualifications:

- | Studies in electrical engineering, communications engineering, computer science or similar
- | Experience in object oriented programming
- | Experience with VisualStudio.Net
- | Interest in EMC / wireless applications
- | Good knowledge of written and spoken English and/or German

Our offer:

You can expect very good payment, excellent terms and outstanding opportunities for growth and development. We will also be happy to help you find a room. We have a number of favorably priced accommodations at our disposal. We offer mandatory internships as well as voluntary internships. Combining a voluntary internship with a mandatory internship is possible.

Our recruiting team is looking forward to your application. It's best to apply online with the reference number DE-MUC-50822584-005. Our colleague Anna Geisberger is happy to answer any additional questions. Kindly get in touch via LinkedIn or Xing.
